

GLIDER: SOCIB'S UNDERWATER ROBOT

Underwater gliders collect data from the ocean. Oceanographers use them to find out about the temperature, the amount of salt in the sea and much more...

How do you think the glider sends the data to the SOCIB?

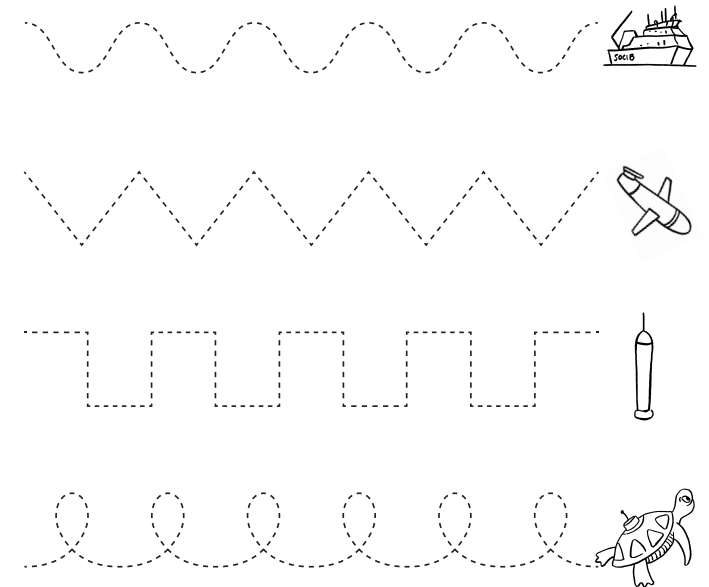

NAME AGE

How do my family and I help preserve the ocean?

.....
.....
.....

Complete the route for SOCIB's instruments and the turtle.

DID YOU KNOW? SOCIB ...
has a web site, [followtheglider.es](http://www.followtheglider.es), where you can see all the gliders in the Mediterranean. You can also see videos, experiments and interesting things to learn about. There are even instructions to build your own glider model, with the help of an adult!
